Case quality: inc-0042

This review checks the case files against the kit rules: claims without a query, empty coverage cells, open data gaps, data close to deletion, unproven containment. It does not judge the conclusions.

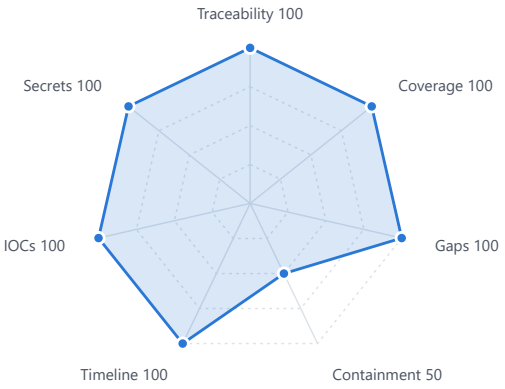

CLIENT	INCIDENT	OPENED
Example Corp	inc-0042	2026-09-13T08:10Z
REPORT	**SEVERITY**	**STATUS**

01 Overall score

Claim traceability	x25%	100
43 of 43 claims cite a worklog row, item or gap		
Source coverage	x20%	100
10 of 10 coverage cells filled		
Data gaps handled	x15%	100
0 of 3 gaps still open		
Containment proven	x15%	50
2 of 4 recommendations have a log reference		
Timeline sourced	x10%	100
12 of 12 events cite a source		
IOC hygiene	x10%	100
3 of 3 indicators defanged and sourced		
No secrets in files	x5%	100
0 file(s) with secret-like values

Findings by severity

Critical · 0 High · 0 Medium · 2 Low · 0

02 What to fix

SEVERITY	FILE	ISSUE	FIX
Medium	recommendations.md #3	Critical action still Not visible in logs: Rotate the database password from the same .env.	Chase the owner; re-check with ir-containment-check
Medium	credentials.md #3	Rotation of 'Other secrets in the same .env (database URL)' is not proven.	Ask the client for proof or keep it as an open recommendation

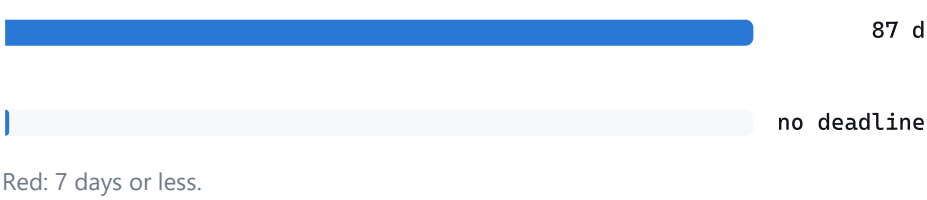

03 Source coverage

SOURCE \ PLAN ITEM	01	02	03	04	05
S1 siem-demo cloudtrail / guardduty	w10	w3 w4 +2	G1 w5 +1	G2 w7 +2	w11 w12 +1
S2 github audit export	w9	n/a	n/a	n/a	n/a

w1 checked G1 checked, part missing n/a not applicable G2 data missing

? not checked

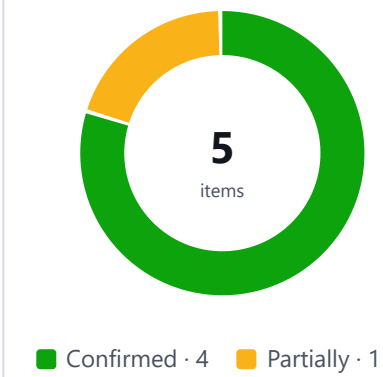

04 Days until the data is deleted

Open, requested and unavailable gaps. Red: 7 days or less.

05 Findings by plan item

#	QUESTION	STATUS	FACTS
01	Review exposure of the ci-deployer access key `analysis/item01_key_exposure.md`	Confirmed	2
02	Review the actor's API activity `analysis/item02_actor_activity.md`	Confirmed	4
03	Review persistence `analysis/item03_persistence.md`	Partially	4
04	Review data access in S3 `analysis/item04_s3_data_access.md`	Confirmed	3
05	Review containment `analysis/item05_containment.md`	Confirmed	4

06 Progress by NIST SP 800-61 phase

Define the entry point and scope of the attack		4/5
Containment		2/2
Eradication		0/1
